**Development of a FHIR Application to Capture Patient Reported Measures (PRM) for Patients with Rib Fractures**

**Team No Sugar**: Tyler Rodgers, Antonio Franchini, Dan Paris, Greg Aldahondo

Github Link: https://github.gatech.edu/gt-cs6440-hit-spring2019/Development-of-a-FHIR-application-to-capture-patient-reported-measures-PRM-for-patients-with-rib

- Go to https://cs6440-s19-prj033.apps.hdap.gatech.edu

- Use patient id 1696383 to login and test

- If for any reason the website is not reachable at the above address, the app can be run locally by following these steps:

  - Check out the repository https://github.gatech.edu/gt-cs6440-hit-spring2019/Development-of-a-FHIR-application-to-capture-patient-reported-measures-PRM-for-patients-with-rib.git

  - Install all the needed libraries by executing **npm install** from the root folder (command line)

  - Run the application by executing **ng serve** from the root folder (command line)

  - Open the browser and navigate to http://localhost:4200
